CASE STUDY: SPRATT ENDICOTT

spratt endicott
SOLICITORS

CLIENT OVERVIEW

With 9 partners, Spratt Endicott is a nationally recognised, Oxfordshire based, law firm, providing a full range of legal services spanning commercial and private clients. Spratt Endicott provides services for businesses, including; commercial, employment, and property litigation. Personal services include, residential property, wills and probate, and advice on employment, the firm also prides itself on providing a range of online services.

CHALLENGES FACED / REQUIREMENTS

- Spratt Endicott wanted to speed up their IT system and ensure it was as reliable as it could be without disruption
- The business wanted to provide its team with a flexible working option so they can access their server any time, any where

SOLUTION

P2 installed a new desktop server to speed up the processes within Spratt Endicott and allow flexible working. Flexible working is becoming increasingly important amongst businesses and its employees. P2 also installed the latest software, and will receive proven, trusted expertise and an efficient IT service fully managed by P2.

RESULT

As a result of the new desktop server, Spratt Endicott now has a highly efficient IT strategy that operates without interruption.

Andy Wilkinson, IT Manager at Spratt Endicott says: *"We are a busy law firm and for us it is absolutely essential that our IT system operates at maximum speed and without interruption. P2 Technologies solution shone through giving us a high level of confidence and proved that they understood our requirements. The virtual server and desktop system is a flexible, scalable solution with which we expect to have close to 100% availability."*
